CADRA PLANNING LIST EXPLAINED

Both versions list current applications CADRA considers are of wider interest in our area, selected from Reading Borough Council's (RBC) and South Oxfordshire District Council's (SODC) lists.

For each application the list has the: site address, council ward, description, status, application type, a link to CADRA's comments and to the details held by Reading Borough Council (RBC) or South Oxfordshire District Council (SODC).

As an application progresses, we categorise them as:

- NEW - Added since the previous month.

- CHANGED - Those with changes since the previous month, which include new plans, key reports, decisions or appeals.

- ACTIVE - Unchanged and not yet decided that CADRA maintains an interest in.

- MONITORED - Decided but retained because of attached conditions or possible appeals.

In Jul 2025 Reading Borough Council has introduced a new planning application system. Whilst all applications have been migrated from the previous system, only selected supporting documents have been transferred to the new one.
