

220350 - One House 68 St Johns Road Reading RG4 5AL

CADRA welcomes this project, which will greatly improve the area and is much better than the previous conversion proposal. The relationship of Plot 1 to the adjacent house will no doubt be carefully considered by the Planning Officer. Of the two car park layouts we prefer Option B and ask whether, given existing densities and thus probable pollution in the area, car charging points could be included.
