

PL/25/0841 - 6 CHURCH STREET, CAVERSHAM

CADRA fully supports this application for the sensitive restoration of 6 Church Street, a 17th-century Grade II listed cottage. Although a small property it forms a key part of a group of historic buildings marking the gateway to old Caversham and is vital to its character. The proposals show a thoughtful balance of conservation and modernisation. We also urge action on drainage issues affecting this and nearby properties.
